

Guidelines for Caps

Additional information:

- Knit or crochet the baby cap
- Caps should be made using any shade of **PURPLE** yarn. Other colors of yarn may be incorporated into the cap, but a shade of **PURPLE** should encompass at least **50 percent** of the cap.
- Yarn and thread labeled as "baby friendly" should be used for caps.
- Infant heads come in a variety of sizes. As a general rule, caps should have a circumference between 7.5 - 13.5 inches and a height of 3.5 - 6 inches.
- Please refrain from including "pom poms" or any type of strap to secure caps to baby's heads. These pose a potential choking and/or strangling hazard to babies.
- Visit www.clickforbabies.org for more information.
- Please knit and mail/drop off your PURPLE newborn caps, as many as you like, to be received no later than October 27, 2011 to:
